

ABOUT SAWUA

The Association is comprised of governmental bodies, municipal water providers, agricultural water users, and others interested in working cooperatively to achieve the objective of the Association.

The Association believes it should exercise leadership and initiative to determine and encourage the most effective management of the region's sustainable supplies of quality water.

The Association is not, nor is it intended to be, a substitute for local government. It is, however, an organization through which its individual members can work on water resource issues and coordinate their efforts.

GOALS AND OBJECTIVES

SAWUA provides a proactive forum to:

- ◇ Discuss and analyze federal, state, regional, and local water resource management, policy, and planning.
- ◇ Consult, coordinate, and cooperate in the development of effective water resource policy and planning, including legislation.
- ◇ Ensure appropriate policies and programs are in place to protect the quantity, and quality of water resources within and available to Southern Arizona.
